

Serial No. 10/634,732 filed August 5, 2003
Response of July 28, 2005 to
Notice of Allowance of April 28, 2005

Remarks

Receipt is acknowledged of the Notice of Allowance of April 28, 2005. In response thereto, the present transmittal is being submitted along with a Request for Continued Examination to allow inclusion and consideration of the references and information in the enclosed Information Disclosure Statement (IDS) as part of the record.

The claimed inventions were previously deemed patentable over Morifuji '991 and the remaining references previously cited. Some additional references are enclosed herein to ensure that they are of record. It is submitted that the pending claims remain fully patentable for the same reasons as previously discussed, as the references do not teach or suggest the particular structures recited in the claims.

In addition, several dependent claims have been cancelled without prejudice in the amendment set forth above for potential pursuit in Applicant's pending national phase application.

The Commissioner is hereby authorized to debit any and all fees required for the RCE and IDS, and any all further amounts deemed required, from Deposit Account No. 50-1604.

Dated: July 28, 2005

Respectfully submitted,

Morris E. Cohen (Reg. No. 39,947)
